GIS Developer & Data Analyst

Qualifications Profile

As a graduate in Geographic Information Systems, I have honed my skills in various aspects.

- ✓ **GIS Developer:** Skilled in land surveying, spatial data collection, and developing interactive WebGIS platforms. Experienced in processing spatial datasets, buffer analysis, and mapping workflows to support decision-making processes
- ✓ **Website Developer:** Proficient in programming software-based for data analysis, manipulation, and interpretation.
- ✓ **Data Analyst:** Strong analytical skills with the ability to collect, organize, analyze, and disseminate significant amounts of information with attention to detail and accuracy.
- ✓ **Spatial Data Analyst:** Proficient in GIS software and spatial analysis to deliver data-driven geographic insights and actionable maps for stakeholders with high accuracy.
- ✓ **Data Entry & Visualization:** Systemize and visualize data for stakeholders.

Experience

Data & Geospatial Analyst Intern (Sept – Dec 2025)
at PT PLN Persero UIP JBT

- Built an interactive GIS platform (Laravel, OpenLayers, Leaflet) featuring 19 dynamic tools to monitor RUPTL 2025–2034 project data.
- Processed photogrammetry via DJI M350 RTK, Agisoft, and ArcGIS across 10+ sites, generating 3D models and DEMs with GCP precision of ±0.002–0.01m
- Applied SRGI geoid undulation data to adjust ellipsoidal heights to MSL for precise land feasibility analysis

Data Analyst Intern (Feb – June 2025)
at Dinas Pekerjaan Umum dan Penataan Ruang.

- Assisted Kecamatan Patean’s RDTR compliance (Permen ATR No. 14/2021) by conducting field surveys to ground-truth land use, transport networks, and evacuation points
- Executed GIS topology corrections (QGIS/ArcGIS) to eliminate overlaps and gaps (<0.0025 ha) and presented validated spatial updates to project mentors

Survey & Mapping Data Intern (Jan – Feb 2025)
at Kementerian Agraria dan Tata Ruang/Badan Pertanahan Nasional Republik Indonesia

- Verified building locations across 2 villages in Sragen Regency using QuickBird satellite imagery and aerial photography
- Calculated and validated land area data across 7 villages and performed field boundary measurements in the Kalijambe area for PTSL mapping

Web GIS Developer & Data Analyst (Apr – Dec 2024)
at Direktorat Jenderal Vokasi, UGM

- Built an interactive platform and thematic maps for Ngargosari Village to support local tourism and economic planning
- Led entrepreneurship workshops and resident training programs to help local guides earn professional certification

Data & GIS Analyst Intern (Jan – Feb 2024)
at Ministry of Energy and Mineral Resources (ESDM) Yogyakarta

- Analyzed 12 months of monitoring well data and created 8 thematic maps to classify groundwater depth and exploitation rates across DIY
- Conducted pumping tests and periodic groundwater quality checks across multiple regional sites to support sustainable resource management

Education

GADJAH MADA UNIVERSITY (2022 – 2026)
Applied Bachelor’s degree of Geography Information System – GPA 3.5

Organization

Student Election Commission BEM KM SV UGM (2023)
• Event and Campaign Commissioner

Geoscience Study Club (KSC)	(2023 – 2025)
Coordinator Team	
Family of Students from the Department of Earth Technology (KMDTK)	(2023 – 2025)
- Coordinator Social Community Division - Coordinator Research and Development Division	
Student Association of Remote Sensing and Geography Information System	(2023 – 2025)
Coordinator Social Community Division	

Certification

- Certificate Program Ormawa Membangun Negeri (POMN) from Kemendikbudristek
 - Introduction to Data Analysis using Microsoft Excel
 - Business Analysis & Process Management
 - Create a Project Management Tracker Using Microsoft Excel
- More Information About Certification: [Lisensi dan sertifikasi](#) | [Rindi Tri Setyaningsih](#) | [LinkedIn](#)

Software Skills

- GIS: ArcMap, QGIS, ENVI, Global Mapper, Google Earth Engine, Geoda, ArcGIS Pro, GeoDa, Geomatica 2015, Drone Mapping, Photo Modeler, GeoServer, IBM SPSS, Drone Deploy, SeaDas, AutoCad, Emlid Studio, RINEX, Agisoft Metashape
- Programming and Data: HTML, CSS, JavaScript, PHP, Python, R Studio, Ionic Framework, Laravel, Jupyter, Visual Studio Code, Android Studio, React Native
- Database: MySQL, PgAdmin, Maria DB, Excel, PostgreSQL, MySQL, DBeaver.
- Data Visualization: Power BI, Tableau, AdobePhotoshop, SketchUp, Ocean Data View

Technical Skills

- Survey: NavCom, Trimble, Leica, Theodolite, Waterpass, Total Station, GPS Handheld, DJI Te
